Malani Igneous Suite - Marwar Contact : Educational Excursion

On the morning of **7th August 2023**, the humanities stream of classes 11th and 12th were taken to an Educational Field trip during school hours, outside the bounds of RKK. We, the students, brimmed with excitement when we were informed that we would get to witness the inauguration of a Geo-Heritage Site in our very own Mehrangarh fort. Abuzz with the zeal to learn, at 10 am we boarded our buses and set-off towards our destination.

Upon reaching the fort, we met with students of various schools proudly waving the Indian national flag, and we joined them in their loud chants of 'Vande Mataram' and 'Jai Hind' with overflowing patriotism. The event was an initiative of 'Aazadi Ka Amrit Mahotsav', put forth by the government of India for completion of 75 years of independence of our country. We were then greeted by the members of the Geological Survey of India, Western Branch, Jaipur, who gave us a preview of what was to come. Afterwards, we were led to Rao Jodha Marg where His Highness Maharaja Gaj Singhji (Chief Guest of the event) inaugurated the Geo-Heritage site. With the celebratory mood continuing, we then headed towards the location of the main event, where the guests and speakers enlightened us about the spectacle that sits in Mehrangarh fort. Approximately 75 crore years ago, in the Precambrian Age, a volcanic eruption led to the formation of the Malani Igneous Suite, which is one of a kind and of great importance to our heritage. In contact with this is the Marwar sandstone which was created around 65 crore years ago, thus creating an enormous geological time gap within the two stones. This is a very interesting feat and thus comprises two of Rajasthan's Geo-Heritage sites in the same place. Speakers such as Dr. Shiv Singh Rathore and Dr. Ram Jeevan also informed us that the Malani Igneous Suite - Marwar Contact is a spectacle for geo-tourism in the country, and they also discussed with us the importance of geo-conservation and knowledge about the heritage that surrounds us. With 90 Geo-Heritage sites in India, and 13 in Rajasthan, the speakers also passionately expressed their belief that the first ever Geological Park of India should be built in Jodhpur. The students cheered and showed their willingness to pursue this endeavor. Then we heard the encouraging words of His Highness Maharaja Gaj Singhji, who instilled in us pride for living in such an important city, and motivated us to strive to always conserve our heritage.

Around 12:45 am, after the vote of thanks by Sri Devendar Singh, the students and teachers were served delicious refreshments. Then we made our way back to RKK, our minds full with inspiration and wisdom, our hearts proud and heads held high. It was a truly enriching experience that we were awarded, and we were truly privileged to have been able to witness history in the making.

AFS National Calendar Activity 2023-2024 (Joy of Sharing: Let Happiness Spread)

As Frederic Lenz has rightly said, “Selfless giving is the art of living”

Happiness comes from helping others, by being with others, and by sharing, even if it's only a smile. Be like the sun that fell in love with the moon and shared all his light. An event where you can dare to make a noble impact with your noble substance, where you can dare to cause a change that will forever be remembered and where you can dare to be the real reason for the relief of somebody. The real foundation of love lies in being shared instead of keeping everything to you. Like seeds waiting to sprout, ideas need the nourishment of sharing to grow into something magnificent. Only then can they bear the fruits of inspiration and ignite the flame of creativity in others. The event gave a wonderful opportunity to the students to express and participate in the **“Joy of Sharing.....Let Happiness Spread”** and emerge today triumphant as a capable and sensitive global citizen. The event was organised, conducted and executed by Miss Amba Singh Jhabua, the AFS Incharge, under the able guidance of Mrs Sapna Gupta, the AFS Coordinator of RKKGPS, Jodhpur along with the help of following RKKians – **Prachi Jain X, Piya Salecha X, Pari Salecha X, Priyal Jain IX, Adwitiya Saxena IX**. The ‘Result Declaration Ceremony’ of the event was held on the **19th August, Saturday, 2023**. The judges of the event were Mrs Indra Shaktawat and Mrs Shikha Tomar, both of them have been committed instructors in the field of community service and share a strong love for helping others. According to the judges, all of them are winners, but following three schools did outstanding work :

1. Sarala Birla Gyan Jyoti, Guwahati
2. Mount Litera Zee School, Roorkee
3. Delhi Public School, Kolar Road, Bhopal

A total number of 55 schools displayed their enthusiastic participation wherein 251 students were participation holders and 15 students were merit holders. In the countless , we saw a total of 266 students spent volunteering whether it be feeding the hungry, sheltering the homeless or lending a helping hand to the elderly, they have not only spent their time and resources but something far more precious – their love and compassion. Through community service, the students have not only transformed the lives of others but also their own. They have learnt the true meaning of humility and the power of empathy. They have discovered the joy of giving without expecting anything in return, and in doing so, they have become better versions of themselves. However, the journey doesn't end here for the young minds. There are still countless souls yearning for a helping hand, hearts waiting to be touched, and dreams waiting to be nurtured. It is our duty, as compassionate beings, to continue this noble endeavour and inspire others to join us in this transformative mission. In the words of Mahatma Gandhi, “The best way to find yourself is to lose yourself in the service of others”.
